### OVERVIEW

1. Identify metrics to track
2. Identify SCORM data model elements that can be used to track the metrics
3. Identify API methods required to record metrics
4. Create or modify the JavaScript files needed to interact with the SCORM API
5. Create a mechanism to launch resources using the API

## RESOURCE LIST PAGE

```
/* contains functions used to interact with the API and launch the tutorial page */

var IID = API_1484_11.getLearnerIDFromPortal();
var courseWindow=0;
var win;

function popUpWindow(URLStr, c, wd, ht, overflow){
    wd = parseFloat(wd) + 80;
    ht = parseFloat(ht)+100;
    // close any course windows that are open
    if(courseWindow){
        if(!courseWindow.closed) courseWindow.close();
        //check that API is still available
        if (API_1484_11.sessionState == -2 ) {
            API_1484_11.sessionState = API_1484_11.SessionState.RUNNING ;
            var learnerID = API_1484_11.getLearnerIDFromCookie() ;
            if ( learnerID != -1 )  {
                API_1484_11.transState = API_1484_11.TransState.ACTIVE ;
                API_1484_11.loadLearnerData( learnerID ) ;
            } else {
                API_1484_11.transState = API_1484_11.TransState.ACTIVE ;
                learnerID = API_1484_11.getLearnerIDFromPortal() ;
            }
        }
        //1. set course ID via API
        API_1484_11.setCourseId(c);
        //2. build course link
        var cl = "http://somePathToYourStuff/" + URLStr + "/player.html";
        if (overflow == " " || !/^scroll|resize|both$/.test(overflow)){
            overflow = 'both';
        }
        win = window.open(cl, "'width=' + wd + ',height=' + ht
        + ',scrollbars=' + (/^scroll|both$/.test(overflow) ? 'yes' : 'no')
        + ',resizable=' + (/^resize|both$/.test(overflow) ? 'yes' : 'no')
        + ',status=no,toolbar=no,menubar=no,location=no'
        );
    }
}
```

```

function popUpWindowNT(URLStr, c, wd, ht){
    //use for resources that aren't tracked
    wd = parseFloat(wd) + 80;
    ht = parseFloat(ht)+100;
    // close any course windows that are open
    if(courseWindow){
        if(!courseWindow.closed) courseWindow.close();
    }
    var cl = "http:// somePathToYourStuff /" + URLStr + "/player.html";

    win = open(cl, 'courseWindow',
    'toolbar=no,location=no,directories=no,status=no,menubar=no,scrollbars=no,resizable=no,copy
    history=yes,width='+wd+',height='+ht);
    attachEventListerner(window, "unload", engageUnload, true);
    //adds unload listener for when window is closed
}

```

## SAVING RATINGS

Call the functions to store ratings:

```

<a href="javascript: setRating('use', '1', 'wasUseful')" id="useful1">Yes</a> | <a
    href="javascript: setRating('use', '-1' )" id="useful0">No</a>

```

## JAVASCRIPT FUNCTIONS

```

function getSavedRatings() {
    vUse = parseFloat(SCORM2004_CallGetValue('cmi.score.scaled'));
    setUsefulColor(vUse);
    vRec = parseFloat(SCORM2004_CallGetValue('cmi.score.min'));
    setRecommendColor(vRec);
    vRat = parseFloat(SCORM2004_CallGetValue('cmi.score.raw'));
    setNumRateColor(vRat);
    if (vUse !=0 || vRec !=0 || vRat!=0) { ratingsubmit = true;};
    /* temp commenting to avoid errors
    ratingsubmit = false;*/
}

```

```

// probably could use a single function and looping though the child nodes.
function setUsefulColor(cmiVal){
    if(cmiVal=="1") {returnObjById("useful1").style.color="#006600";}
    if(cmiVal=="-1") {returnObjById("useful0").style.color="#006600";}
}
function setRecommendColor (cmiVal) {
    if(cmiVal=="1") {returnObjById("recommend1").style.color="#006600";}
    if(cmiVal=="2") {returnObjById("recommend0").style.color="#006600";}
}
function setNumRateColor (cmiVal) {
    if(cmiVal=="1") {returnObjById("numRate1").style.color="#006600";}
    if(cmiVal=="2") {returnObjById("numRate2").style.color="#006600";}
    if(cmiVal=="3") {returnObjById("numRate3").style.color="#006600";}
    if(cmiVal=="4") {returnObjById("numRate4").style.color="#006600";}
    if(cmiVal=="5") {returnObjById("numRate5").style.color="#006600";}
}
function setRating(cmiElement, cmiValue) {
    switch ( cmiElement ) {
        case "use":
            returnObjById("useful1").style.color="#333333";
            returnObjById("useful0").style.color="#333333";
            bInUse = SCORM2004_CallSetValue('cmi.score.scaled', cmiValue )
            if ( bInUse == true) {
                setUsefulColor(cmiValue); // sets the color of the link
            } else {
                alert("can't save your rating at this time");
            }
            break;
        case "rate":
            returnObjById("numRate1").style.color="#333333";
            returnObjById("numRate2").style.color="#333333";
            returnObjById("numRate3").style.color="#333333";
            returnObjById("numRate4").style.color="#333333";
            returnObjById("numRate5").style.color="#333333";
            if (SCORM2004_CallSetValue('cmi.score.raw', parseFloat(cmiValue) ) == true) {
